

The Flexmls® App for Real Estate Professionals

The Full Power of the Flexmls Platform is Mobile

The Flexmls App for Real Estate Professionals* puts the full power and reliability of the MLS at the agent's fingertips on their mobile device. Designed with continuity in mind, the Flexmls mobile app mirrors the Flexmls Desktop experience so there's just one system to learn. Agents have the autonomy to run their business, their way - any time, any place.

In the Flexmls Mobile App

- Customize preference when viewing listings - list, map or listing detail view.
- Quickly find listings based on current location, MLS # and other criteria.
- Search intuitively by typing or speaking an agent or contact's name and/or listing information.
- Access third party applications.

Work On-the-Go

- Maintain listings: change status, edit price, and add/change photos.
- Schedule an open house.
- Run a hot sheet report to stay up to date.

Manage Contacts and Client Relationships

- Add new contacts, make saved searches, and set up client subscriptions.
- Direct message, invite new contacts to the portal, and keep contacts up to date with saved searches and subscriptions.
- Identify the most active contacts at a glance and view email open rates and clicks for viewed listings.

"I have the Flexmls app on my phone so I can check it out anytime I want. It's instant; if a listing status changes, reductions, all that good stuff. If I'm with a client, I can pull up a listing and give them all of the information."

- Bryant Mitchell, Sunday Dinner Realty Group
